CREATIONS IN EARTH

Clay or Ceramic Art is probably the most ancient art by man. In fact, Ceramic Art in India exists from more than 10,000 years before. But Ceramic art is no longer just limited to clay pots and the famous kulhads, but it has become a part of home and kitchen décor! In spite of this, Ceramic artists still lack a good marketplace to promote their products. Most Ceramic artists have to wait for exhibitions, fairs and such places to showcase their creations to the people. ArtyOwl.com understood this concern and decided to bring such artists in the public eye. We at ArtyOwl.com not only give these artists their own online store but also provide all the logistics and backend support to ensure that their products attract maximum people.

ArtyOwl.com is happy to bring to you one such Ceramic Artist, Ms. Sumathi Madhav and her creations, CREARTH. CREARTH i.e. Creations in Earth are beautiful ceramic ware that are handcrafted by Sumathi herself. Each article is unique in its own way and has great deal of detailing and elegance. CREARTH has a wide product range of kitchenware, tableware and home décor. Special mention goes to the Handpainted Wall Platter which is amongst her bestsellers as well.

ArtyOwl.com will keep bringing such treasures to the forefront. For more products of Crearth, check out the store only on www.artyowl.com. Happy Looking!!
